Principal's Message

Dear Parents and Sanskritians,

In these difficult and anxious times I would like to reach out to you through these few lines of mine.COVID-19 with its sudden upheavals has changed our routines and lifestyles. Each one of us and the entire world is affected by the Corona Virus Pandemic. This pandemic has accelerated existential issues like acute individual loneliness in the wake of lockdowns and quarantine or isolation, disturbances of social life, contaminating the interpersonal space with distrust of each other; in short our entire way of life is adversely affected by the scare of COVID- 19 and has created new psychological situation for people.

We believe that this is the time to not just deal with the current emergency, but also build foundations of resilience to face such difficult events in the future. Let us consider this challenge as an opportunity. The COVID 19 Pandemic should not lockdown the aspiration of our young generation. My suggestion is that they should take the lead and work with teachers to develop new e- learning content. Students should remain active and receptive and use the extended lockdown to learn new skills. It may be as basic as drafting a letter, improving English, or other language skills, public speaking, play an instrument, cooking, housekeeping etc. Keep fit with meditation, yoga and other fitness programmes.

Dear Parents, help your child to remember the ways that he/she has successfully handled hardships in the past and help them understand that these experiences strengthen their character preparing them for future challenges. An optimistic and positive outlook enables your child to see good things in life and keep going even in the hardest times. Appreciate and acknowledge their accomplishments.

For I believe sprouted in the fire, does not with era way in the Sun!

Dear students, as much as you may be missing school and your peer group, we are missing you

coming to the school. The whole campus remains lifeless without your active presence. These are times when we have to stand together as one family belonging to the entire world. We pray for a quick control of the COVID 19 Pandemic, for a healing of those affected, their families and health care personals. Remember humanity has seen worse, and every time we have bounced back.

We will, again! Being hopeful is the key.

Editor's Message

Greetings to our lovely readers!

We are back again with another exemplary volume of our newsletter.

Last couple of months have tested us in many ways but have also taught many life lessons may be in hard way. We learnt to value our health, family & above all Mother Nature. This pandemic once again proved the theory by Charles Darwin, 'Survival of the Fittest' and I admit this with a lot of pride that we sailed through the entire journey well.

I look back when the last volume was published, we were learning and coping with the new trends of imparting education but today, we have exceled the technology outshining the old conventional ways and our confidence is at a new elevation. It is heartwarming that our scholars and worthy parents have made this transition effortless with their support.

To satisfy your taste buds for reading, the editorial team have put together shiny pearls to come up with yet another beautiful amalgamation of hard work put in by all of us. In the next few pages you will find the glimpses of the extra-ordinary academic session of 2020-21 (October – December). May God be with us and this New Year heals all our sorrows and agony, as this too shall pass!

With heartfelt prayers,

HAPPY READING.

Coping up with the New Normal: Challenges & Derivations Covid-19 pandemic and lockdown has brought about a sense of fear and anxiety around the globe and has led to physical and mental health issues. The worst affected being children and senior citizens. Throughout the world, an essential mode of prevention from covid-19 infection has been isolation and social distancing strategies. One of the principle measures taken during lockdown has been closure of schools, education institutions and activity areas. The not so normal circumstances led to stress anxiety and a feeling of helplessness in all. In young children and adolescents the pandemic has a greater impact on social and emotional development as compared to that in grown-ups. Although, severe psychological conditions of increased irritability, inattention, disturbed sleep, nightmares, poor appetite, agitation and separation related anxiety was reported by people irrespective of their age groups. The absence of structure setting of schools for a long duration has resulted in disruption of routine, boredom and lack of innovative ideas for engaging in various academic and extra-curricular activities. The children complain for not being able to play outdoors, not meeting friends and not engaging in the in-person school activities. Further, due to prolonged confinement at home and increased use of internet and social media pre disposes them to use internet compulsively and access objectionable content. However, we do not know when things take a normal turn but as parents and mentors we have a duel responsibility to look after our children so that at least it doesn't affect them adversely. Following are some of the strategies which we should adopt to help children

1. Parents are the best 'role model' for children and home is the best place to learn 'life skills'. This is the best time for parents to teach important life skill lessons, handle disappointments and uncertainties more positively.
2. By taking some responsibilities on an everyday basis for example cooking, organising their room, managing laundry, cleaning etc.
3. Excessive internet surfing related to covid-19 should be avoided, irresponsible use of social media should be monitored. More non gadget related indoor activities and games should be encouraged.
4. Taking up creative pursuits like music, dance, art helps to manage a complete well-being for everyone. Also encouraging the children to inculcate reading will help.
5. Most of all the parents should take care of their own mental health needs and try to cope with stress and anxiety adaptively.
6. Mentors can also devote some time and engage students by taking some interactive sessions in the form of puzzles, quizzes and creative home assignments.

Managing emotional health of the child tops the list. Let us try to understand the confusion and chaos going on in these naughty, sweet, playful, intelligent and curious minds. There are so many things which they do not confront. Just like we handle a flower so delicately that it blooms in all its colours with all its fragrance we need to look after our children to bloom fully as happy healthy individuals.

Ball Point Pen

I'm not so ancient as a pencil or a pen
Give me a chance I shall be your friend.
Indeed I'm quite modern in my origin
and looks
Can you guess who am I?
I'm a naughty fellow
And my name is cello.
I write for people everything
And don't ask them anything.
They never say I'm a hero
Just because I wrote a zero.
My colour is blue
And I never get flu.
I can give you a clue
Only if I'm new.
I 'm not used by a hen
I'm a ball point pen.

TRUE GEMS OF GOD-FRIENDS

Are we friends or are we not
You told me once but I forgot
So tell me now and tell me true.
So tell me now and tell me true.

So I can say I'm here for you
Of all the friends I've ever met.
You all are the one I won't forget.
And if I die before you do

I'll go to the heaven and wait for you.
I'll give angels back their wings.
And risk the loss of everything.
There isn't a thing I wouldn't do
To have a friend just like you.

JUST A PASSING THOUGHT

"Time changes and with the time people" an old but an honest saying. No matter, how you are or what you are, you get to see this in your life. At one time you are best of friends, few years down the line we become complete strangers. I look back now and wonder how many of my friends from the school time are still in contact? Forget the random people, do you just say 'Hi' to even your best friends? And then one person takes the initiative to get them together, trying to relish the old memories of school once again by organizing reunions and somehow few succeed in getting a few to meet and stay in touch. I sometimes sit and just wonder what happened? But then realize that our busy life doesn't leave us with much of time; we are always on our toes. If you care enough, you are successful in maintaining good friends. Actually we are letting go off the good people around whom, at one point of time, your whole life revolved. Whatever little time you get make sure it's spent well with the people who have always been there for you standing by your side watching you grow and revolve into the person you are now!! Yes dear scholars always respect your PARENTS AND YOUR ELDERS. *Just a thought!!*

RIDDLES

- Tear one off and scratch my head what was red is black instead.
- What can travel around the world while staying in a corner?
- What kind of room has no doors and no windows?
- Which word in the dictionary is spelled incorrect?
- Take off skin – I won't cry, but you will! What I am
- If you have me, you want to share me. If you share me, you haven't got me.

(Answers- matchstick, stamp, mushroom, incorrectly, onion, secret)

HAPPINESS

"What is happiness? Is it a feeling of joy or just a feeling to be able to live amply, to be successful or to have a charming face?"

I think that happiness is an emotion, of being stress-free, comfortable and living life at its fullest. Happiness has its own influence that scientists are even trying to find the reason behind this unbelievable magic. For me, the reason behind this magical emotion is freedom, acceptance of being what we are and believing in our capabilities.

It is very rightly said that "Laughter is the medicine of life". Being happy in itself is a big reward. It has many advantages, if we are happy our body and mind functions properly, we attain success in the journey of life.

Especially when times are tough, it is required that we train our mind to stay positive and seek happiness even in the darkest hour.

So dear friends ***"BE HAPPY AND TRY TO BECOME A REASON OF SOMEONE ELSE'S HAPPINESS"***.

किसी के चेहरे की मुस्कान सफलता की ओर पहला कदम– शुगर क्लास

प्रिय अभिभावक गण,

हम जिस समाज में रहते हैं उसमें सकारात्मकता लाने के दायित्व भी हम पर ही है साल 2020 हमारे लिए कई मायनों मैं यादगार रहा। पहली बार हमने प्रकृति का महत्व माना, पहली बार हमने स्वयं को स्वयं को पुनर्जीवित किया। कुछ ऐसे काम किए जिसने हमें मानसिक आत्मिक संतोष दिया। नई–नई तकनीकों को जाना ।

ऑनलाइन शिक्षण के दौरान मेरी चुनौती थी विद्यार्थियों की एकाग्रता को बनाए रखना। उन्हें शिक्षण से बांधे रखना। उन्हीं दिनों में मैंने भारतीय अमेरिकी मूल की प्रतिभाशाली युवा वैज्ञानिक और आविष्कारक गीतांजली राव को सुना उन्हें टाइम मैगजीन ने अभी तक की पहली किड ऑफ द इयर घोषित किया है।

उनके विचारों से प्रभावित होकर मैंने उन 35 मिनट की कक्षा को दो भागों में बांटा 25 + 10 यानी पूर्व में 10 मिनिट हैरान करने वाला आश्चर्यजनक तथ्यों को बताना गुस्से उनसे जानना और अंत के 25 मिनट किताबी पढ़ाई अनजान जानकारियों से भरी इस 10 मिनिट की शक्कर में डूबी कक्षा को मैंने नाम दिया शुगर क्लास। इस कक्षा में बच्चे ही ये निर्धारित करते हैं कि आज किस विषय पर प्रश्न पूछे जाएगें।

ई.क्लास जहां बच्चे कैमरा माइक ही बंद नहीं करते बल्कि मुँह व दिमाग भी बंद कर लेते हैं, उनकी उपस्थिति पर निगरानी रखना भी मुश्किल है तो ऐसे हालात में डिजिटल निर्भर इन बच्चों से कुछ सवाल पूछती हूँ ,ये सवाल तेजी से एक के बाद एक जब पूछे जाते हैं तो उन्हें दूसरे डिवाइस पर गूगल करने का मौका भी नहीं मिलता है तब मैं उन्हें समझाती हूँ कि मेरी कक्षा में यह ध्यान देंगे तो मैं कोशिश करूँगी कि हर क्षेत्र में उनका ज्ञान बढें। शुरुआत के 10 मिनट 'शुगर क्लास' पर खर्च करके मैं मनोयोग से 25 मिनट उन्हें पढ़ाती हूँ।

अतः अभिभावक गण आपसे मेरा निवेदन है कि अनेक आकांक्षाओं व भ्रमों के इस दौर में अपने बच्चे के साथ किसी भी विषय पर आधारित शुगर क्लास का आयोजन करें और उनके चेहरे पर ज्ञान व आत्मविश्वास की मुस्कान जगाए।

हमारे ऑनलाइन योद्धा

खुद पर बने चुटकुले
और हर मजाक और तनाव को
आजकल, चुप– चुप सहते हैं
यह उनकी कहानी है जिन्हें हम गुरु
मैडम, सर या अपना टीचर कहते हैं।

हां! ये वहीं हैं जिनकी क्लास में अक्सर
तुम छुपकर टिफिन खाया करते थे।
होमवर्क आज घर पर छूट गया,
ऐसे बहाने बनाया करते थे।

ये वही हैं जो गलतियों पर अक्सर
तुम्हें टोक दिया करते थे।
जो गलतियां औरों ने की वो
तुम्हें करने से रोक दिया करते थे।

पर अब ना वो रोकना ना ठोकना
सब कुछ जैसे अब पिदम हो गया।
अरे! अब स्कूल भी ऑनलाइन हो गया।

अब तुम होमवर्क करो, ना करो क्या फर्क पड़ता है।
टीचर की डांट से अब कोई कहां डरता है ।
अब तो क्लास बंक करना पहले से आसान हो गया ।
बंक कर पब्जी खेल कर सोचना जैसे टीचर का ही नुकसान हो गया ।

काश! तुम समझते कि ये वे लोग हैं जिन्होंने अपने अंदर यह अरमान रखा है, इतने मुश्किल समय में भी तुम्हारा हाथ थाम रखा है।

क्योंकि वो जानते हैं .....तुम इस देश के भविष्य हो।
तुम्हें अभी हासिल वह मुकाम करना है आगे चलकर तुम्हें रोशन उन सबका नाम करना है।

तो चलो, आज थोड़ा सा वक्त निकाल कर उनका हौसला बढ़ाया जाए
इस जंग में वो अकेले नहीं उतरे हैं तुम भी उनके साथ हो, यह बताया जाए।

क्योंकि ये वो योद्धा है जिन्होंने अब तक हार नहीं मानी है इस मुश्किल दौर में भी जो पढ़ा रहे हैं यह उन वीरों की कहानी है!!!
